## WORK EXPERIENCE

### UX DESIGNER | 3 QUEENS DESIGN COLLECTIVE

San Francisco Bay Area, CA | September 2016 - Current

- I transform behavioral insights through tools such as user interviews & research into experiences via web & mobile platforms.
- I convey concepts through various UX techniques such as paper prototyping wireframes, storyboards, mockups, etc.

### UX ENGINEER & FRONT-END DEVELOPER | SMARTZIP ANALYTICS INC.

San Francisco Bay Area, CA | November 2015 - September 2016

- Worked on creating Ruby on Rails software, primary focusing on Front-End Engineering & UX/Interaction Design.
- Constantly learning and working with new technologies such as React.js as well as creating features from the ground up which allowed me to experiment with exciting code.

### UX RESEARCH ASSOCIATE | YOUHEY

San Francisco Bay Area, CA | March 2015 – November 2015

- Evaluated user interviews to code sentiment analysis on user experience of various applications and websites
- Wrote reports and interpreted data of human-computer-interactions by generating insights from interviews

### UX ASSOCIATE & FRONT-END DEVELOPER | OXFORD TECH + UX

Berkeley, CA | April 2014 – June 2015

- Front end developer for company's annual UX Awards website
- Led innovate UX research & analysis for clients' projects through various platforms
- Primary coordinator with CEO to manage UX Awards; co-led voting process for UX Awards; cultivated communications & business development strategies for UX Awards & client projects
